

Plan of Completion

Hirbod Gholamniaetakhsami

Master's programme Statistics and Machine Learning

Institution: Linköping University

Status: As of now, I finished the courses and I am waiting for the grades of the following three courses Bayesian Learning, Web Programming, and Text Mining with six credits. There is also the grade of my master's Thesis (30 credits) which I am waiting for.

I expect the course results to be announced in late June. Additionally, the thesis was defended on June 3rd and finalized version of the written report was already submitted and according to that course regulations I expect that the results from my Thesis to be announced in week 25, 2024.
